

Create Your Own

CHOOSE YOUR OWN

Pre-made tests are convenient, but they don't always have the questions *you* would ask. Our Create Your Own option gives you the opportunity to use the questions, phrases, words, essay questions *you* want to include on your test.

HOW IT WORKS

When you purchase the Create Your Own option for a title, it goes into your account, just like an e-doc does. You simply go to your account and click on the Create Your Own product you purchased. A screen will come up asking you to choose multiple choice, matching, vocabulary, composition, or quotations. When you choose the format, a list of questions, words, essay questions, or quotations will come up. Simply select the ones you want and click Print. Your test/worksheet/review materials are created. You may choose to print your materials on paper and/or save them for later use. You can also print answer keys for the multiple choice, matching, and vocabulary formats. Create as many worksheets or tests as you want! It's that simple.

ANSWER KEYS

We all know that answer keys get around after a while. With the Create Your Own™ option, every test for every class can be different.

SKILL LEVELS

If you have a class of students with a variety of skill levels, match the test questions and formats to the skill levels of your students. You could make a different test for each student if you wanted to!

MAKE-UP TESTS

Make-up tests are a part of school life. With the Create Your Own™ option, creating and grading make-up tests is painless.

REVIEW MATERIALS

The Create Your Own option is great for creating review materials for your students. You can make extra vocabulary worksheets, for example, with just the words giving your students trouble. Perhaps your students need fewer matching words on a page than the LitPlans provide; you can create smaller, targeted worksheets. Perhaps you would like to create your own quizzes for different groups of chapters or scenes. The Create Your Own option gives you a lot of possibilities.

TEST DRIVE THE CREATE YOUR OWN FEATURE ON OUR WEB SITE! WWW.TPET.COM

Click on the Create Your Own [More Info](#) link at the bottom of our home page....

Create Your Own

We've created this "test drive" area where you can see how the Create Your Own function works. The sample data is from *A Raisin in the Sun*, but the functionality will be the same for all titles.

IT'S EASY!

Click on the kind of test or worksheet you want to make. Choose the questions, words, or quotations you want to include. Click "CREATE" Click on the printer icon to print out the page(s). Check the "Show Answers" box to create an answer key (not yet available for composition or quotations).

TRY IT NOW!

Click On One:

- [Quotations](#)
- [Short Answer](#)
- [Vocabulary](#)

Composition

These are composition/essay questions

Matching

This has a list of words related to the unit (characters; names, places, symbols, etc.) with "clues" for each.

Multiple Choice

These are mostly fact-based questions with A, B, C, and D answers from which students can choose the correct answer.

Quotations

Not all titles have a quotations sections available but those that do have a list of quotes from which you can choose.

Short Answer

These are mostly fact-based questions. Students write in the answers.

Vocabulary

This has a list of vocabulary words taken from the book. Definitions are provided as "clues."

The Create Your Own feature has been very popular in its first year. We hope to begin expanding it soon, to allow you to add your own questions/answers or words/clues. Keep checking on our web site for updates.
